

HOW TO APPLY OPEN ACCESS DISCOUNTS TO YOUR ARTICLE?

Step by step guide

STEP 1: CONTACT

Upon acceptance of the article, the corresponding author emails OAFunding@degruyter.com or Journal Editor contact and requests that their publication is made open access.

STEP 2: APPROVAL

The publisher verifies author's affiliation and includes information on discounts in the relevant section of the Open Access Contribution Form, if applicable.

STEP 3: COMPLETION

The author completes and signs the Contributor Form and sends it back to publisher.

STEP 4: DATA CHECK

The publisher checks data and the open access publishing process begins, the APC cost will be covered by the Author or the Funding Institution.

In order to help authors cover the costs of OA publishing, De Gruyter has introduced ***Institutional Membership Agreements*** and ***national OA Agreements***. We offer a generous discount and waiver scheme for OA publishing and this step by step guide explains how authors can make use of these agreements.
